Visa Status: Student Visa (Subclass 500) – Full working rights during breaks; 48 hours/fortnight during term

PROFESSIONAL SUMMARY

Software Engineer and AI Specialist, currently pursuing a Master of Information Technology. Blends advanced technical architecture with operational resilience to build intelligent, scalable systems. Proven expertise in full-stack .NET enterprise development, machine learning pipelines, and computer vision architectures. Strong operational background leveraging enterprise database tools to optimize logistics and ensure rigorous quality assurance in high-pressure environments.

TECHNICAL SKILLS

- **Programming Languages:** Python, C#, Java, PHP, JavaScript, HTML/CSS.
- **Frameworks & Libraries:** ASP.NET Core (Razor Pages), PyTorch, OpenCV, Pandas, Scikit-Learn, JavaFX, Bootstrap, Tailwind CSS.
- **Data & Architecture:** MySQL, SQLite, Neo4j (Cypher), SAP Business Warehouse (SAP BW), Asynchronous Programming.
- **Tools & Infrastructure:** Docker, Git/GitHub, Linux (Ubuntu, Kali), VirtualBox.
- **Specializations:** Machine Learning, Computer Vision, Data Analytics, Object-Oriented Programming (OOP), Full-Stack Development.

EDUCATION

Master of Information Technology

Australian Catholic University (ACU), Sydney, NSW | *Jul 2024 – Jul 2026 (Expected)*

- **Key Subjects:** Machine Learning, Data Mining, Text Mining, Azure OpenAI.
- **Focus:** Orchestrating end-to-end predictive models and enterprise cloud architecture.

Bachelor of Science (Hons) in Computing (Software Engineering)

University of Northampton | *Mar 2021 – Feb 2024*

CERTIFICATIONS

- **Microsoft Certified:** Azure AI Fundamentals (Oct 2025)
- **Microsoft Certified:** Power Platform Fundamentals (May 2025)
- **Microsoft Certified:** Azure Fundamentals (Oct 2024)

TECHNICAL PROJECTS

Multimodal AI Resume Screener | *Python, Machine Learning, Computer Vision*

- Engineered an automated screening system capable of evaluating and ranking text-based documents and video inputs.
- Implemented machine learning algorithms to execute objective candidate analysis and streamline HR workflows.

Enterprise Asset Checkout Architecture | *ASP.NET Core, C#, SQLite, Bootstrap*

- Architected a full-stack web application featuring role-based Identity authentication and dynamic routing.
- Utilized asynchronous programming to ensure high-performance data fetching and responsive user interfaces.

YOLOv5 Deep Learning Pipeline | *Python, PyTorch, OpenCV*

- Implemented an end-to-end computer vision object detection pipeline utilizing PyTorch and transfer learning.
- Processed custom dataset annotations to achieve high-accuracy, real-time object classification.

Dockerized E-Commerce Platform | *PHP, MySQL, Docker*

- Designed and deployed a containerized, full-stack pet supply platform utilizing Object-Oriented PHP.
- Configured Docker Compose to create isolated, reproducible server environments for seamless deployment.

PROFESSIONAL EXPERIENCE

Team Member (Data & Logistics) Sonoma Bakery | Sydney, NSW | Nov 2024 – Present

- Utilize SAP Business Warehouse (SAP BW) to monitor enterprise inventory levels and ensure accurate data entry for high-volume outgoing shipments.
- Collaborate cross-functionally with logistics teams to troubleshoot system discrepancies and improve overall workflow efficiency within the distribution center.

Application Developer Intern

MIDAS Technologies | Kathmandu, Nepal | *Apr 2023 – Jun 2023*

- Developed healthcare-focused software applications using Java and Delphi, applying strict Object-Oriented Programming (OOP) principles to create modular, scalable code.
- Participated in the full Software Development Life Cycle (SDLC), optimizing SQL database queries and authoring comprehensive technical documentation.

Graphic Designer Intern

Kontentify Networks | Kathmandu, Nepal | *Jan 2024 – Jul 2024*

- Managed the end-to-end design process for digital marketing campaigns, ensuring timely delivery within a high-pressure network environment.
- Analyzed YouTube Analytics and API data to monitor content performance, translating technical metrics into optimized visual engagement strategies.
